

Vivitek DX331

VIVITEK DX331

Brief Introduction

Beta 2.5

A brief introduction to the Vivitek DX331. The DLP projector has an XGA 1024 x 768 resolution and a contrast of 30000:1 full on/of. The lamp life is specified by the manufacturer as 15000 hours, which converts to over 20.5 years at 2 hours per day. Thanks to the brightness of 4500 Ansi lumens, a picture width of 584 cm is possible. The projector will also create slightly brighter rooms with a smaller picture width (we recommend max. 389 cm). As the projector optionally recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Even 1080P video signals are no problem for the projector.
